Dear Parents/Guardians,

At CSPA we celebrate the students efforts by mentioning their participation in school events and achievements across many media platforms. Student photographs, videos, digital images or work samples may be included in newsletters, blogs and on the school website. These can be accessed by all members of the school and general public. Students are identified only by their first name and initial of last name and year level, for example 'Jane S. 4D'.

On occasion we invite the media to school events and they are expected to follow the school policy. When a story is about an individual achievement, we will always seek consent prior to publication. Unless a story features an individual child, only group photos are included.

If you do **NOT** want any digital files of your child or samples of their work included in one or more media platforms, please complete the form below and return it to your classroom teacher. If you do not return this form it will be deemed that you have given permission for publication. Refer to the Photography, Filming and Recording policy on our website or contact the Office.

This non-consent form is valid for the current school year, and must be completed every year.

Yours sincerely,

Monique Corcoran  
**PRINCIPAL**
