

# Life Education - Whole School (rescheduled)

Dear Parents/Carers,

As part of our Health & Physical Education curriculum the CSPS students will be participating in the Life Education program.

<b>Date:</b>	Monday, 8 November to Monday, 15 November 2021 A timetable outlining when each grade is attending will be available closer to the event.								
<b>About:</b>	Life Education aims to deliver an interactive program with a focus on physical, social and emotional health and wellbeing. The program empowers students with knowledge, skills and attitudes they need to make informed decisions about their health.  The Life Education experience includes a work booklet for each student to further explore the topics during class, before and after the Life Education visit, so it is important that all students attend.  Additional information is also available via the <a href="#">Life Education</a> website.  This program is a part of the Health and Physical Education curriculum. We encourage all students to participate.								
<b>Program schedule:</b>	A timetable has been scheduled to allow for each class to participate in the Life Education program individually.
