# Upper School (Yr 3, 4 5 & 6) Reading & Mathematics Log

Dear Parents/Guardians,

Cranbourne South Primary School does not set formal homework requirements across year levels. However, the Upper School would like to encourage students to read every night and log reading in their home-learning journals. Furthermore, we encourage the learning of mathematics, fluency in particular, three times a week (times-tables, Sunset maths etc.).

These activities complement and reinforce classroom learning, foster good lifelong learning and study habits as well as support partnerships by connecting families with the learning of their children.

Students will receive ten house points per night when their reading is logged and if they complete both reading and mathematics (3) they will receive a positive point on Fridays!

We look forward to seeing these journals.

Thank you,

**Upper School Team**
