101 questions

What's the first question that comes to your mind?

Nrich Maths

http://nrich.maths.org/public/
Math Pickle is a website for locating videos and exercises appropriate for teaching a variety of mathematics concepts at a variety of grade levels. When you visit Math Pickle you can browse for videos by grade level. Once you've selected a grade level you can then refine your browsing to a particular concept. Each concept has a demonstration video and links to Keynote and Powerpoint files for teachers. Each concept also has links to PDF worksheets that you can download and print.

Free Presentations in PowerPoint format & Free Activities for Kids

This is a humongous section. Many talented teachers have been extremely generous by freely posting some of their best presentations in PowerPoint format for reading, writing, grammar, word analysis, listening and speaking, vocabulary, spelling, comprehension, poetry, journalism, note-taking, proof reading, real vs. make believe, figurative language, tenses, sight words, paragraphs, essays, sequencing, sentence variety, phonics, parts of speech, fact vs. opinion, plagiarism, Dewey, book reports, capitalization, passive and active voice, 6traits +1, thesis statements, prefixes, suffixes, dangling participles, compare and contrast, and more! Take a look!
